The work in Pondoland east and west, and the Pondos are asking for schools in a remarkable way; they have as you are aware lately come under British rule, and are settling down under the regime very happily, ^(the church) we came in at a very opportune time; the people seem to be different from those at our immediate Colonial border. They are not nearly so proud and averse to European habits, they seem to desire to adapt themselves to the new conditions. I could spend £200 more annually in beginning schools among them with advantage; these little schools form centres of light and Christianity. The chief Magistrate told me, he wished to see as many of these schools as possible scattered through the land.

I am ashamed to ask the Society for more money, after its marked generosity towards me displayed for the last 4 years.

But it would be well spent if we had it.

Padstow is now within our grasp, if we
had more men, and more money.

I hope to send my annual letter

My dear Sir,

In reporting on the state of our Decade, I am
glad to be able to say, that in spite of the unsettled
state of many parts of Africa, peace here reigns
supreme; our people, who have in time past
much trouble and ^{caused much} anxiety. But Cape Government
officials who are not in the least interested with the re-
mains which reach them of war and rebellion in
Mashona land and among the Bechuana
although all of one race, all Bantu, these rumours
which reach them solely through the medium of
white people they meet with supreme indifference.
The seat of trouble is too far away, Zululand and Ba-
suto, and therefore as they might take an in-
terest in. But these tribes in the north are nothing
but names to them, and indeed their very names
of many they have heard first from us: any
help rendered to them or by them, which might
lead out a hope of successful rebellion, is not
of the cause of pop. ⁱⁿ ~~the~~
on the other hand contrary, every thing

to the Board of Directors

seems tending toward peace - The Pando¹²⁺³ chiefs have apparently quite given themselves under our rule. Keli is dead and his son is never heard of. The Tembu tribe is still numerous, but they never were warlike as a nation, and there is no sign of unrest among them. The most powerful tribes the Baca and the Huli, are our faithful allies, akin as they are to the Fingo clans from Natal, who are now so numerous and scattered throughout the country; they follow Fingo traditions of loyalty to us, and are rising with the scale of civilization, & becoming more and more desirous of education and European ways and dress.

It seems true as though a change were coming over the whole population; ~~these thoughts seem to~~ slow indeed but all the easier for that.

The ties which bound the people to the chiefs are becoming relaxed in a very marked manner; the people are assuming more and more the independence which British law gives, but which they are so slow to be conscious of or to use. They go much more to the European courts of justice, for civil cases; and do not hesitate to appeal to the magistrate against

the chief decision. all this is very ¹²⁴⁵ significant. Happily the change which is coming over the people, takes a useful and peaceful direction; they are more and more anxious for education; in some cases the chiefs oppose this desire; and their distrust in so doing is no doubt a true one, so far as their own interests are concerned, for education and every thing derived from us, must surely weaken their power and influence.

Education is the order of the day. Our own Kaffir Institution is filling up: and the Education Department in Capetown, is pressing upon us to make it permanently a Normal college, with lower schools attached. The firm establishment of such a school, on the scale demanded by the Education Dept., will be a lasting benefit to our mission work; we must be careful that the secular education required by Govt. regulations is not all they get; the young ^{men} acquire, but that Christian principles and definite Church teaching be ^{instilled into them by us} ~~instituted into them by us~~ ^{for the} ~~be required of them on our part~~; the longer there among these people, the more it becomes plain that education alone is a doubtful boon.

I say that this school will be a real benefit to
our mission work. The work opens out so rapidly
and is demanding an all round, trained Christian
teachers, that we shall not be able to keep pace
with what is being required of us; and that
among tribes which hitherto have been sunk
in barbarism, and know nothing of Christian
teaching. Before I leave England I have
promised to visit a tribe in Zululand near
the mouth of the Umfolozi, as yet quite untouched
by any teaching; who are receiving the ministrations
of Rev. John Xaba; and among all these coast
tribes between the Bashee and Natal, I could
have 20 qualified teachers and evangelists.
If I had the men, and the money to pay them;
for of course placing teachers among these tribes
as wild almost they were quite 20 years ago)
as wild as any tribe in Central Africa, is a very
different matter from starting a school and
a mission among Hottentots or Basuto, who
are always willing to build the school, and pay
something for the teacher salary; here everything

has to be done for them at first.

That we shall be able, by far
 help to guide this movement toward some
 thing new, something higher, which I have
 attempted to describe as taking place among
 our ^{native} tribes: no doubt it is largely due to the
 steady tide of native labourers, setting to and
 from the gold fields of the Transvaal.

~~It is to be done~~ The movement must be guided
 into the direction of Christianity: these atoms
 of humanity, separated from their old relations by
 the ^{fire} ~~force~~ of our civilization, must be induced to reform
 in the ~~new~~ new moulds which the Religion of Christ offers
 to mankind. I do believe that this is a critical time
 for this country, politically & socially, for the two races
 are meeting under the impulse of forces hitherto un-
 known; and they never mix. and religiously; for now
 our Church is upon her trial, will she accept
 the duty thrust upon her, of guiding, leading, nursing
 the souls of the people? God and the angels are
 watching her; we can ~~think~~ and speak of these great
 movements in the maps, of the great rush of our natives
 to the centres of industry drawn by the high wages,

of the uprooting of old customs, the old allegiance to the chiefs, the old superstitions; of the ~~temptations~~ lessons they learn of drinking and brutality: THEY see the working in the soul of each, the temptation as it takes hold of, and drags down this one; and the readiness on the part of that one, as his mental vision becomes enlarged under the new conditions, to receive new impressions, and be drawn up in the scale of humanity, a little nearer God. May He grant that we are not wholly found wanting, in this day of the Lord when we are being weighed in the balance!

It means greater care and vigour in our older missions; for it is there we shall find the materials for a native ministry, by which alone we succeed in influencing these tribes. We have 5 native Priests, and 9 deacons, and a large number of catechists and preachers; but we want twice as many, for the work we have, cut out for us, even in our own diocese; and when we look beyond at the wider fields now opening up, which might fairly say to us the older dioceses, "Come over and help us," send us some of your native preachers and priests," we can but think and wish, and wonder.

Yours faithfully, Proavsky S. John

grant towards these two buildings at
once. The estimated cost of the latter
is £300. I do trust it has not been un-
estimated as so often happens.

I propose therefore to apply for a payment
towards £725 expenditure. I do not
know if your payments are in ratio
work done. I notice you grant us
exactly half of our full scheme's amount.
I feel sure the Bishop will be able
to comply with your conditions.

Yours obediently in Christ

The Treasurers
S. P. G.

Dear Sirs

I enclose herewith notice of bills having
been paid in respect of you.

The bill for £100 included £50 for this quarter &
£50 which was not drawn for the quarter ending
31st March. from special legacy fund.

You will observe that Canon ^{John} Brown of St James College,
St James Umtata & Albany, appears on the list for
the first time. Consequently the allocation for some of
the other stations is altered from last quarter.
The Rev R A Kirkham of St James Umtata has just left
the Diocese, so his name need not be put on your list.

I am
yours faithfully

C. C. Parker

Diocesan Accountant

Please forward in time for next quarter a new book of blank
forms on which to draw bills.

Mr Kirkham does not appear to have been recognized
by the Society as a ^{superior} & therefore he ought
to have been shown as such.

safeguard to the Treasurers against accepting Bills not properly drawn or authorised; and the credit of the Society and of its correspondents abroad is damaged if suspicion attaches to any Bills from neglect of those precautions, which the drawers only can supply through the medium of a Letter of Advice, properly filled up and despatched by the quickest route to the Treasurers, in the Society's Office in London, at the same time as the Bills are drawn.

EXTRACTS FROM S. P. G. REGULATIONS.

I. *Missionaries—their Selection and Appointment.*

2. No Missionary can be placed on the Society's List without an express resolution of the Society sanctioning his appointment and specifying the terms on which he is engaged. * * * *

3. In the case of a Missionary *not sent from this country* [England] the Society requires a recommendation (unless under exceptional circumstances) from the Bishop of the Diocese in which the Missionary has resided for a year immediately preceding. But a Missionary may be provisionally appointed and paid from an unexpended Grant by a Colonial Bishop and Committee (see 49) pending a reference made immediately to the Society.

4. When a Missionary, not having been sent by the Society from this country, is proposed to be placed on the Society's List, the following particulars are to be sent to the Society:—(1) Name of the Missionary. (2) Age. (3) Where educated. (4) Where, and in what work, engaged during the last three years. (5) Married or single.—Number of children. (6) References to Clergymen and others in this country to whom he may be known. (7) Proof of his competency to teach in any vernacular language required in his Mission. (8) Name of the Mission for which he is proposed. (9) Any other particulars which may assist the Society to form a correct judgment on the case.

XI. *Accounts, Bills, and Drafts.*

55. A separate account is to be kept of all Grants from the Society, and they are not to be mixed in a general account with other funds of the Diocese.

56. The amount required for the payment of the salaries of the Missionaries is to be drawn at the end of each quarter by the Treasurer or Secretary, under the direction of the Committee.

58. Bills* are to be drawn payable thirty days after sight, and (a) where the Grant is not dispensed through a Local Committee, they must be drawn by the recipient himself, and must state his station, and the period of service for which he is remunerated. (b) Where the Grant is dispensed through a Local Committee, the amount of several salaries may be included in one Bill, and the above particulars respecting each salary must be stated in the Letter of Advice* preceding or accompanying the Bill.

60. A balance* is to be sent at the end of each year, showing the amount of Bills drawn on the Society and the actual expenditure on account of the Society's Grant, and the balance (if any) remaining in hand; and receipts from the Missionaries and others must be sent as vouchers for the expenditure.

* Forms may be had on application.

MEMORANDUM.

I. The Treasurers of the Society for the Propagation of the Gospel in Foreign Parts desire to call the special attention of all persons authorised to draw Bills upon them, on account of Grants made by the Society, to the imperative necessity which exists for all Bills to be preceded or accompanied by the Letter of Advice, as required by Regulation 58, in the form prepared and supplied by the Society. A Letter of Advice following a Bill is of no use for the most important of the purposes for which it is required.

II. In the case of Bills from India or other places which have communication with England by several routes, it is essential that the Advice should always be posted so as to go by the quickest route, and thus under any circumstances reach the Treasurers by the same mail which brings the Bills from the Merchants; as otherwise the Bills run the risk of not being promptly accepted for want of it. When the drawer of a Bill has once parted with it, he ought to act as if it was certain that it will reach London by the quickest possible route.

III. In any case of Forgery or other tampering with Bills, the Letter of Advice forms the only safeguard to the Treasurers against accepting Bills not properly drawn or authorised; and the credit of the Society and of its correspondents abroad is damaged if suspicion attaches to any Bills from neglect of those precautions, which the drawers only can supply through the medium of a Letter of Advice, properly filled up and despatched by the quickest route to the Treasurers, in the Society's Office in London, at the same time as the Bills are drawn.

Attention is particularly requested to the instructions on page 4 as to filling up this form.]

MEMORANDUM

I. The Treasurer of the Society for the Propagation of the Gospel in Foreign Parts desires to call the special attention of all persons authorized to draw Bills upon them, on account of Grants made by the Society, to the importance of observing which rules for all Bills to be presented or accompanied by the Treasurer of the Society, as required by Regulation 6, in the form prepared and supplied by the Society. A list of Advice following a Bill is of no use for the most important purposes for which it is required.

II. In the case of Bills from India or other places which have communication with England by steam vessels, it is essential that the Advice should always be given as to go by the quickest route, and that under any circumstances reach the Treasurer by the same route which brings the Bills from the place to which they are sent. The Bills must be accompanied by a statement of the amount of the Grant, and the date of the Bill must be given, and it is essential that it will reach London by the quickest possible route.

III. In any case of delay or other tampering with Bills, the Treasurer of the Society will be obliged to suspend the payment of the Bills, and the result of the suspension will be that the Bills will not be paid until they are accompanied by a statement of the amount of the Grant, and the date of the Bill must be given, and it is essential that it will reach London by the quickest possible route.
